

**FOR
YOUR
SAFETY**

To ensure the highest level of protection for all our guests and employees, and to fully comply with Government regulations, we have developed the following **6-Step Process** to provide a safe and clean environment for your future stays:

1 CLEAN surfaces

We completed a deep-clean and sanitisation of our establishment prior to reopening. To maintain this standard, our team will carry out regular and thorough cleaning routines during the course of each day, with additional emphasis on high-traffic areas.

2 CHECK temperatures

We will check the temperature of all persons entering the guesthouse upon arrival with a handheld touchless thermometer and, as regulation requires, we will keep a log of all names, contact details and temperature readings for record purposes.

3 COVER mouth and nose

Our team, as well as all persons entering our guesthouse, are required to wear a face mask or facial screen that covers their mouth and nose at all times.

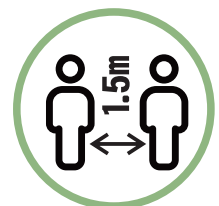

4 SANITISE hands frequently

We have installed hand sanitiser throughout our guesthouse and strongly encourage everyone to sanitise their hands frequently for everyone's safety. When cleaning rooms and public areas, our team will wear single-use latex gloves for your protection and peace of mind.

5 DISTANCE of 1.5 m

We strongly encourage and observe a social distance of 1,5m between all persons and have floor markings to clearly demarcate this required distance in relevant areas.

6 ONLINE check in

We have digitized our check-in process and you can easily complete the required COVID19 medical and travel declaration, guest information as well as your breakfast order online. Once submitted there is no need for you to complete documents on arrival.

Thank you for your on-going support and understanding. We wish you and your family good health and safety during this time and look forward to seeing you soon.
